B. Attach the crossbar to the outlet box and secure with outlet box screws (not included). Hand tighten until snug.
C. Thread the canopy chain loop onto the end of the nipple and hand tighten until snug. Place the ceiling canopy over the canopy chain loop against the ceiling to determine the correct position of the nipple.
D. Thread the canopy lock ring onto the canopy chain loop. Adjust the nipple to allow the ceiling canopy to rest against the ceiling when held in place by the canopy lock ring. Remove the canopy lock ring from the canopy chain loop and remove the ceiling canopy. Unscrew outlet box screws to remove the crossbar assembly. Tight the hex nut above the crossbar. And then reinstall the crossbar assembly to the outlet box.
