ATTRAX is a low voltage magnetic track lighting system for suspension, surface and, trimless recessed mounting. The flexible 48V DC magnetic tracks and LED light module inserts in the ATTRAX series create multiple patterns and lighting combinations for architectural applications.

The ATTRAX LED light module insert collection includes accent light, comfort strip light, double spot light and zoomable spot light. They are attachable to the 48V DC track rails with easy lock/unlock mechanism.

FINISH

- Textured, matte black powder-coated

CONSTRUCTION

- Aluminum
- Double spots design
- Polycarbonate lens

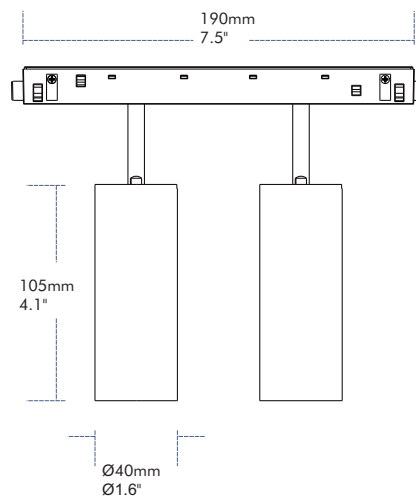

WARRANTY

- 5-Year Warranty (Standard)
- 10-Year Limited Warranty (Optional)

CERTIFICATION & COMPLIANCE

- ETL
- Suitable for dry locations
