

Translucent Design

See-through when powered off.
When on, luminaire design provides both up- and downlight.

NOMINAL LUMENS	DELIVERED LUMENS	*WATTAGE
4000	4013	40 W
3000	3198	35 W
2000	2086	23 W

Based on 4000K, 85+ CRI. Actual wattage may vary +/- 5%

FEATURES

The Edge is an architectural edge-lit troffer delivering indirect, volumetric illumination. A wide distribution fills the entire room with dark spot-free illumination. An exceptional spacing criteria requires less fixtures needed to achieve recommended footcandles. A fully luminous, architectural look makes the Edge ideal for offices, educational, healthcare, and retail applications.

MULTI LUMEN/MULTI CCT

Easily field-selectable multi-lumen and multi-CCT selector switches allow you to easily change the intensity and CCT in the field.

LUMENS	2000/3000/4000
CCT & DYNAMIC PLATFORMS	30K/35K/40K
CRI	85+
COLOR QUALITY	3 Step MacAdam Ellipse
SIZE	2'x2'
MOUNTING	Recessed
DIMMING & CONTROL	0-10V Flicker Free 1% Dimming Standard (DIM10)
EMERGENCY	10W - Up to 1000L output 20W - Up to 2000L output
LIFETIME	L70 150,000 Hours
PHOTOMETRIC TESTS	In Accordance with IES LM79-08, LM80 and TM-30, TM-21

Indirect

Horizontal illumination and minimal glare means softer, more comfortable illumination.

OPTICAL SYSTEM

A multi-dimensional optical system includes a center diffuser, light guide plate, and reflector, combining to produce indirect, even, glare-free illumination. When paired with edge-lit LEDs, the light guide plate directs light from the edges and distributes it evenly over the face of the lens. A reflector on both sides of the lens prevents light leaks from the back, reflecting light source to the front. Center diffuser provides a soft glow of illumination and eliminates surface shadows. A horizontal light source delivers illumination closer to the ceiling line and zero pixilation from both sides of the luminaire. Flat lens allows for luminaire to be extremely shallow in depth.

CONSTRUCTION

Heavy-duty 20-gauge cold rolled steel body, post-painted with a 93% reflective white coat. Shallow depth of 3-5/8" ideal for shallow plenums. All corners interlock to remove sharp edges for safe handling. Luminaire is supplied with multiple wiring entrances for easy daisy chaining, to add power packs, whips, or other accessories in the field, or for continuous row mounting.

MOUNTING

Luminaires accommodate lay-in ceilings, Slot T, and T-bar suspension systems for 5/8" and 3/8" ceiling thicknesses. Four corner tie points are standard for safety wire support when required, with built-in earthquake clips, standard. Luminaires may be available with flange kits, surface mounted kits, and other options.

DRIVER ELECTRICAL INFORMATION

Powered by high-quality constant-current power LED drivers which are rated for 50 to 60Hz at 120/277V input. Available in 347V., produce less than 20% THD, and have a power factor of .90 to 1.00.

DIMMING & DRIVER INFORMATION

DIM10 - Flicker Free 1% Dimming Standard (DIM10) 0-10V dimming on either MVOLT 120, 277V.

WARRANTY

Five-year warranty for parts and components. (Labor not included)

LISTINGS

c-UL-us - Listed for Feed Through Wiring.
Listed for DLC, California Title 24 compliant.
