

Hospital Grade Molded-on Power Supply Cords

HUBBELL

Hubbell Wiring Device-Kellems is pleased to announce the introduction of a new line of Hospital Grade Molded-On Power Supply Cords. These cords are available with gray, black and clear plugs. Depending on the plug color chosen, black or gray cable is available. Each power supply cord comes in 10ft. lengths and can be ordered with either 18/3 or 16/3 AWG SJTOW cable. The molded-on plug is constructed of a high impact and abuse resistant

PVC providing the durability needed for the harsh conditions experienced in the hospital environment. Each power and ground blade is made of brass with a nickel plated coating for superior corrosion resistance. An integral bull ring provides conductor strain relief minimizing possible conductor pullout. Additionally, a molded-on cable arc of bend controller prevents cable damage from right angle pullout.

Features

- High durometer PVC
- Nickel plated brass power and ground blades
- Molded in bull ring strain relief
- Molded-on cable arc of bend controller
- SJTOW cable
- 105°C cable

Benefits

- Provides excellent impact and corrosion resistance.
- Ensures superior corrosion resistance and excellent electrical conductivity.
- Minimizes tension on terminations when subjected to abuse.
- Prevents cable damage from right angle pullout.
- Oil and water resistant.
- Improves resistance to higher temperature abuse.
