

Ceiling LED Pendant

PD13120

INSTALLATION SHEET

START FROM HERE

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging. Next, remove the mounting plate **(1c)** from within the canopy **(2a)** by un-threading the two nuts **(2d)**. Secure the mounting plate **(1c)** to the junction box **(1a)** with screws **(1e)** provided in the hardware package.
- 2.** Before you mount the canopy to the mounting plate select the desired length you wish the pendant **(3a)** to hang. To shorten or lengthen the pendant **(3a)** push up on the canopy nipples **(2b)** and push/pull on the cable, release to secure. Now loosen the set screw **(2c)** until the wire can move freely. You can now push/pull the wire to lengthen or shorten. When you have selected the desired length, tighten the set screw **(2c)**.
- 3.** You are now ready to mount the canopy. First, connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrets **(1b)** from the hardware package. Align the threaded studs **(1d)** with the holes on the surface of the canopy **(2a)**. Next, push the canopy **(2a)** to the mounting plate **(1c)** thread on the two nuts **(2d)** on to the threaded studs **(1d)**. This will secure the canopy to the mounting plate.
- 4.** You have now completed the installation of your fixture, enjoy.
