

LED Pendant

PD16120

INSTALLATION SHEET

START FROM HERE

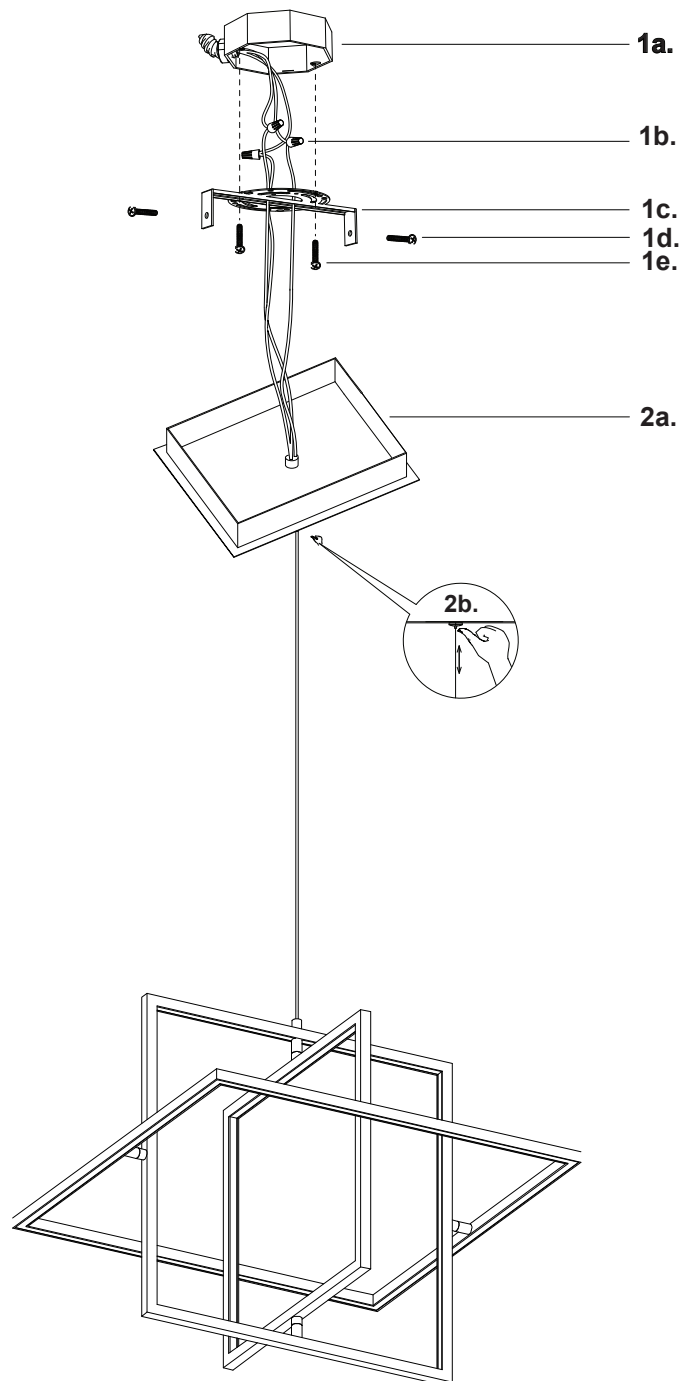

- Make sure power is completely off at the fuse box.
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area.
- Wear gloves at all times during this installation.
- Read instructions carefully before you start assembly.
- Keep this instruction sheet for future reference.

Technical Support: 1-877-452-6858

Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

- 1.** Remove the fixture from its original packaging. Next, remove the mounting plate (1c) from within the canopy (2a) by un-threading the two screws (1d). Attach the mounting plate (1c) to the electrical junction box (1a) by using the two screws (1e) provided in the hardware package.
- 2.** Before you mount the canopy to the mounting plate select the desired length you wish the pendant to hang. To shorten or lengthen the pendant just push up on the sleeve (2b) and push/pull the wire to shorten or lengthen. Release the sleeve to secure the wire in place.
- 3.** You are now ready to mount the canopy. First connect all wires correctly black to black "L", white to white "N" and the ground wire with provided marrets (1b) from the hardware package. Align the canopy (2a) to the mounting plate (1c) up against the ceiling. Secure the canopy (2a) by using the two screws (1d) provided.
- 4.** You have now completed the installation of your fixture, enjoy.
