Source: 50W MR16 GU10 120V (not included)

Type

Project

Catalog No.

Notes

PRODUCT DESCRIPTION

Die-cast GU10 halogen lamp holder with tapered housing style and removable porcelain or frosted glass shades. Luminaire has small stem extending from rail connector, allowing full aiming and 350° adjustment with a low profile.

CONSTRUCTION

Housing: Main body constructed from one-piece .08" die-cast aluminum. Rear of housing tapered to minimize fixture profile. Housing accepts small porcelain (standard, included) or frosted glass screw-in shades.

Stem: Material: 0.07" die-cast aluminum.

ELECTRICAL

Input Voltage: 120V

Wiring: 18 Gauge AWG 200°C, 300V

Socket: GU10 porcelain base with nickel plated copper contacts.

Universal Connector: Construction: 0.07" die cast aluminum shell

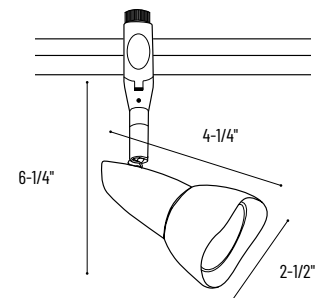

Contacts: Copper for positive and neutral Copper contact spring on top to provide solid contact with ground conductor located on top of rail.
