

LED PANELS SURFACE MOUNT KIT INSTALLATION INSTRUCTIONS

Order code	Description	Length in (cm)	Width in (cm)	Depth in (cm)
SMK-14	FP14-G2	48 - 120	12 - 30	2 - 5
SMK-22	FP22-G2	24 - 60	24 - 60	2 - 5
SMK-24	FP24-G2	48 - 120	24 - 60	2 - 5

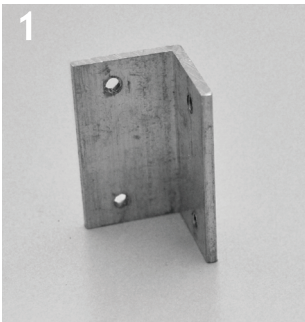

IMPORTANT - READ ALL INSTRUCTIONS BEFORE INSTALLATION

- Installation and maintenance must be performed by licensed electricians only.
- To avoid risk of electric shock, make sure to turn off main power switch prior to installation or maintenance.
- Must be installed in compliance with National Electrical Code (NEC) in the US or Canadian Electrical Code in Canada.
- Ensure input voltage and frequency are compatible with the fixture. Check product manual for power requirements prior to installation.
- Only those open holes indicated in the photographs and/or drawings may be made or altered as a result of kit installation. Do not leave any other open holes in an enclosure of wiring or electrical components.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or any sharp objects.
- Avoid contact with LED modules

COMPONENTS

1. Connectors
2. Screws
3. Frames

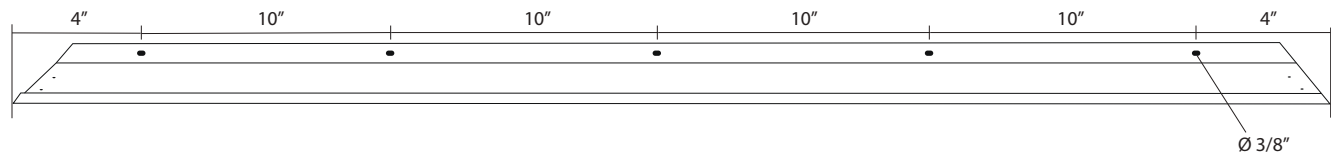

LED PANELS SURFACE MOUNT KIT INSTALLATION INSTRUCTIONS

HOW TO INSTALL

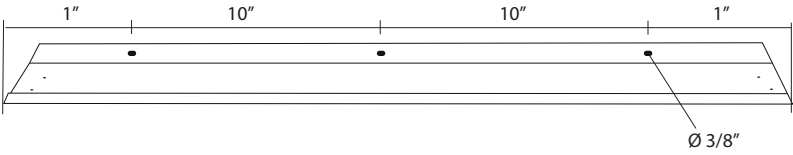

1. Screw three sides of frame together with two connectors to make an U. The connectors are installed inside the corner of the frame.
2. When this is done, screw the U shape frame to the solid surface of the ceiling
3. Slide the panel in the appropriate area (see pictures below).
4. Screw the two last connectors to the last frame, and then screw this frame to the U shape frame on the ceiling to complete the frame.
